209 x 45 and 209 x 50 Rifle	\$479	\$559

Custom Barrel Profiles for the Contender/G2®

While a bull profile is the standard for our Contender barrels, we will taper your barrel to your specifications. If a heavier-than-bull barrel is what you are after you can request a step-up in profile past the lock-up area – to most standard dimensions. Depending on the barrel diameter you choose alteration to standard Contender scope mounts/sights or the installation of Encore accessories may be necessary.

Custom Barrel Add-ons

Bullberry muzzle brake (integral recoil system)	\$115
Threaded muzzle for pre-purchased attachment(s):	
without thread protection cap	\$115
with thread protection cap	\$140
Bullberry thread-on muzzle brake with protection cap	\$250
Muzzleloader ramrod with belt pouch	\$40
Long spaced dovetail inserts for forearm	\$35

"World Famous for Accuracy"

We at Bullberry Barrel Works, Ltd. have received worldwide recognition for our sub-MOA accuracy guarantee. Simply put, this means every barrel must be capable of placing five shots into an inch group at 100 yards when used with our exclusive "Woodsmith" forearm system. If this fails to occur we will repair, replace or refund the cost of your barrel.

*These calibers are only available for use in the G2® action, not the original Contender®. These barrels will be marked specifically for this limited use.
